

Ashwell Primary School

Geography Curriculum

Intent - Implementation - Impact

INTENT: Why do we teach what we teach?	IMPLEMENTATION: How do we teach it?	IMPACT: What has been the impact and how do we know?
<p>Our Geography curriculum intends to:</p> <ul style="list-style-type: none"> ✓ Inspire a curiosity and fascination about the world and its people. ✓ Provide an engaging and varied geography curriculum. ✓ Develop an understanding of the Earth's key physical and human features. ✓ Promote the children's interest in people and places, resources and natural and human environments. ✓ Develop an understanding of how places and people are interconnected. 	<p>Our curriculum for Geography is implemented by:</p> <ul style="list-style-type: none"> ✓ Using a clear progression of skills and knowledge, which builds on children's previous learning. This is based on the EYFS Framework and National curriculum. ✓ Using topic based work so links can be made to other areas of the curriculum providing greater understanding, curiosity and motivation. ✓ Regularly teaching locational knowledge and mapping skills. ✓ Finding opportunities to link geography to the school grounds and local area so learning is based on first-hand experience. ✓ Relating geography to current issues around the world. 	<p>The impact of Geography lessons at Ashwell School will be seen through:</p> <ul style="list-style-type: none"> ✓ Children's high level of enthusiasm and engagement when talking about geography including a real sense of curiosity to find out about the world and the people who live there. ✓ Children's progress and attainment. ✓ Children's use and understanding of the vocabulary associated with geography. ✓ Children being aware of how they can help care for the Earth, its people and resources. ✓ As geographers, children will develop skills and attributes they can use beyond school and into adulthood.
