| <b>EYFS</b>   | Learning in the EYFS lays the foundations for this subject through the seven areas of learning, shaped by both statutory and non-statutory guidance. Children develop key knowledge, skills, and attitudes through a balance of high-quality adult-led and child initiated experiences, ensuring a smooth transition into the subject specific curriculum in Key Stage 1 and beyond. |                                        |                                                                                            |          |                                                                                             |          |
